5 STEPS FOR PROPER DISPOSAL OF PRESCRIPTION DRUGS:

1. Mark out personal information on prescription bottles.
2. Mix liquid medicine with undesirable substances like coffee grounds, cat litter or dirt. Dilute pills with water, then add coffee grounds, cat litter or dirt.
3. Place medicine in an opaque container, like a yogurt container, and secure lid; or wrap in a dark colored plastic bag.
4. Hide the container in the trash. Do NOT Recycle.
5. Check with local Police Dept. Drug Enforcement Agency does (2) collections per year.

Improper disposal in your trash allows others to divert the substance and consume medication that was not prescribed to them.
